

What a Phoenix homeowner types for home theater, and who they find.

Stabley · stabley.net · the three searches, your reviews against the market, the page the campaign lands on, and the campaign file.

1. THREE SEARCHES, AND WHO SHOWS UP

Search	Who shows up	Stabley
home theater installation in Phoenix, AZ	Map: Stabley Home Theater (5, 93); Chandler AZ Home Theater Installation (4.9, 24); Cinematic Home A/V (5, 11); Desert Home Theater (4.8, 33); Audio Video by Design (4.8, 25)	#1 on the map

Google Maps results (Google Places). The live results page was not pulled for this build. Ads: the shops paying to be first. Map: the three on the map with their stars and review count. Page: the sites below them.

2. YOUR REVIEWS AGAINST THE MARKET

Stabley: 5 stars, 93 reviews on Google.

The top 11 shops for "home theater installation in Phoenix, AZ": median 34 reviews; the leader, Dynamic Audio Video Solutions, has 400.

A homeowner picks from the map by stars and count. The count is the gap that moves.

3. THE PAGE THE CAMPAIGN LANDS ON

- <https://stabley.net/>
- No page of its own for home theater.** Add one page for home theater with its own address, and send the ad there. Read: no page on the site names it.
 - The headline does not say home theater and Phoenix.** Make the headline say home theater in Phoenix, the words the ad and the search use. Read: the h1 is "Simplifying Audio, Video, Home Entertainment & Automation".

4. THE CAMPAIGN FILE, READY TO LOAD

Home theater, Phoenix. One search campaign, paused, 12 keywords, 341 negative keywords, 3 ads, 10 dollars a day, landing on the page above.

Keywords: home theater installation phoenix, home theater installation phoenix az, home theater installation near me, home theater installer phoenix, home theater installer phoenix az, home theater installer near me, media room installation phoenix, media room installation near me, home automation installer phoenix, home automation installer near me, smart home installation phoenix, media room installation phoenix az

To load it: open Google Ads Editor, Account, Import, From file, pick `ads-editor.csv`, review, Post. It arrives paused. Turn it on when the page fixes are done.

Every line above comes from the live results page, your Google listing, and your own site. Nothing is estimated.
